RESPONSE

In response to the Examiner's action mailed September 17, 1996, please amend the application, as follows:

In the claims:

57. (Amended) A device for detecting plastic explosive objects in packages or luggage which contain [harmless] non-explosive plastic, or plastic-like [or other] objects in an initially unidentified ensemble of objects, comprising:

a conveyor for sequentially moving packages or luggage through an inspection region,

a stationary X-ray exposure system located at said inspection region and positioned to expose sequentially said packages or luggage comprising an initially unidentified ensemble of objects in said inspection region to X-ray radiation of at least two substantially different energies,

a stationary X-ray detection system positioned to detect X-ray radiation transmitted through an item of luggage or package, said detection system providing data corresponding to the intensity of transmitted radiation of said two energies,

a computer operatively connected to said detection system to receive said data and programmed to calculate a value of specific property of a plastic explosive object in said item

Date of Deposit
